

Level 3 Task

What to do

1. Create your own Fantasy Island

You can use your imagination and create a fantasy island. You can use your existing knowledge about nature, animals, and people, or you can invent fantastic new species.

- Think about the shape of your island and draw a map of it.
- Add cities, mountains, rivers, beaches, forests etc. to your map.
- Find a name for your island and write it on your map.

2. Describe your Fantasy Island

Take notes about the following questions:

Nature & animals:

- What is the climate on your island?
- What kind of seasons are there on your Island?
- Describe 5 plants and trees that grow on the island. Find photos or make drawings of them.
- Describe 5 animals (mammals, insects, birds) that live on the island. Describe their looks, abilities, and habitat. Find photos or make drawings of them.

Population:

- How many people live on the island and what kind of people is it?
- How do they live? Describe a home with 15 sentences and find a photo or make a drawing of it.
- Is it a rich or a poor island? And why?
- How do the people earn their living on the island?
- What kinds of sports or hobbies do they do?
- Describe 1 special tradition they have on the island.
- What is the national dish? Make the recipe.
- Add any other thing you find relevant...

3. Produce a slideshow to present your Fantasy Island

- Use a slide show and put your map on the first slide.
- Add 7-9 new slides with headlines, photos and drawings about the nature, animals, and population of your island.
- Use your notes to write manuscripts for each slide.
- Rehearse and record a speech for each slide.
- Duration: 5-7 minutes.

4. Create a Listening Quiz

- Make 9 questions about your island and quiz your classmates after the presentation.

Hand in:

- A slideshow with recorded speech.
- Word Puzzle Task.
- Listening Quiz.
