

Level 2 Task

What to do

1. Create your own Fantasy Island

You can use your imagination and create a fantasy island. You can use your existing knowledge about nature, animals, and people, or you can invent fantastic new species.

- Think about the shape of your island and draw a map of it.
- Add cities, mountains, rivers, beaches, forests etc. to your map.
- Find a name for your island and write it on your map.

2. Describe your Fantasy Island

Take notes about the following questions:

Nature & animals:

- Describe 3 plants and trees that grow on the island. Find photos or make drawings of them.
- Describe 3 animals (mammals, insects, birds) that live on the island. Describe their looks, abilities, and habitat. Find photos or make drawings of them.

Population:

- How many people live on the island and what are they called?
- How do they live? Describe a home with 10 sentences and find photos or make drawings of it.
- What kinds of sports or hobbies do they do?
- Describe 1 special tradition they have on the island.
- What is the national dish?
- Add any other thing you find relevant...

3. Produce a slideshow to present your Fantasy Island

- Use a slide show and put your map on the first slide. Add 4-6 new slides with photos and drawings about the nature, animals, and population.
- Use your notes to write a manuscript, where you present your island.
- Rehearse and record a speech for each slide.
- Duration: 3-4 minutes.

4. Create a Listening Quiz

- Make 6 questions about your island and quiz your classmates after the presentations.

Hand in:

- A slideshow with recorded speech.
- Word Puzzle Task.
- Listening Quiz.
